

# ThinkFree Server Integrator

## What is TFS Integrator?

TFS Integrator is a set of API solutions, **componentized version of ThinkFree Office Write, Calc and Show Applet based applications, to rapidly integrate powerful document edit and view features to Web-mail, Blog and Groupware.**

### ThinkFree Office

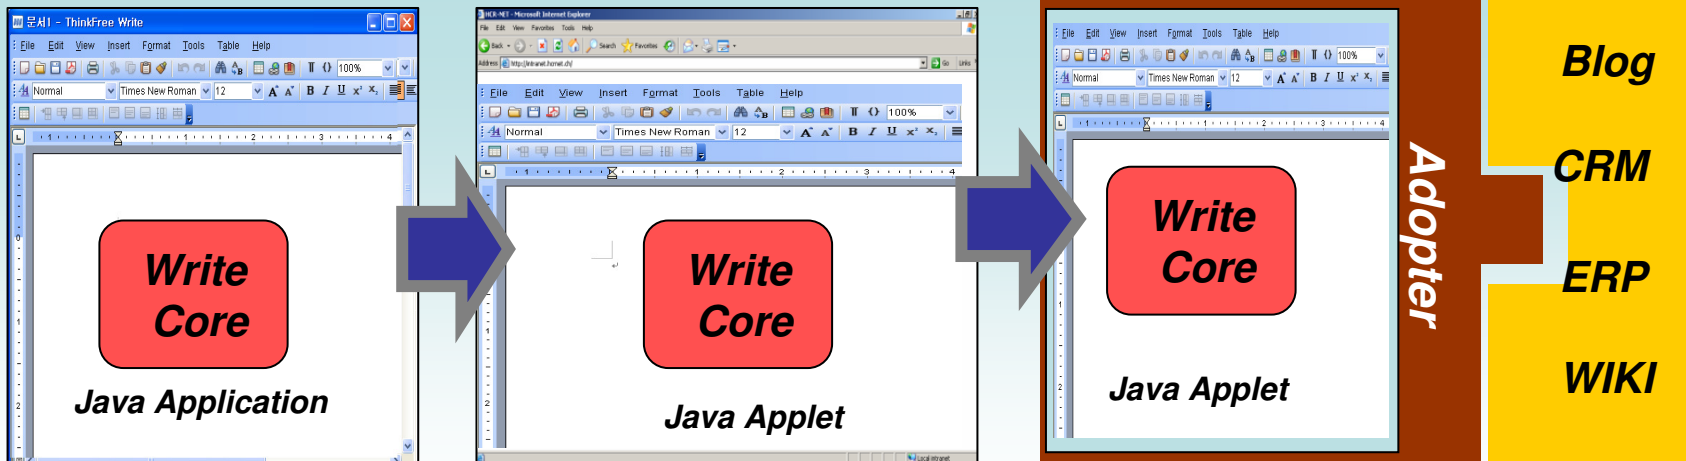

- Runs in local client
- Uses MS Office file format

### TFServer Standard

- Java Applet on Web browser
- No installation necessary

### TFS Integrator

- Customizable office components integrating with Blog/ERP

\* This is an example of ThinkFree Write, and it applies to TFO Calc, Show accordingly.
